## **QPC Lasers to Exhibit High Power Eye-safe and Visible Lasers at SPIE Defense & Security Conference; Invited to Present Technical Paper**

Strengthening company's presence in the defense and security market;  
Company invited to present technical paper entitled  
*"High brightness semiconductor lasers from 780-1800nm"*

**SYLMAR, CA – March 11, 2008** -- QPC Lasers, Inc. (OTCBB: QPCI) "QPC," a world leader in the design and manufacture of high brightness, high power semiconductor lasers for the consumer, industrial, defense, and medical markets, today announced that it will showcase its next generation products and technologies at the SPIE Defense & Security conference on March 18-20 in Orlando, FL, in booth 1316. Participation at this event further establishes QPC's already strong presence in the defense and security market, which includes active contracts with the US Army, DARPA, Navy and Missile Defense Agency.

The QPC exhibit will feature several Ultra™ laser configurations including a 120 Watt eye-safe wavelength model and a 425 Watt near infrared model suitable for many defense applications. Additionally, the company will exhibit its industry leading BrightLase® high power single mode eye-safe wavelength lasers and demonstrate its visible laser technology which can be customized for next generation laser heads-up displays, dazzlers, or flight simulators.

On Wednesday March 17th, the company has been invited to present a technical paper entitled *"High brightness semiconductor lasers from 780-1800nm"* at 3:40 pm.

QPC's active Department of Defense Sponsored Programs include:

- US Navy - Low cost engines for directed energy weapons
- DARPA ADHEL – High power single mode lasers for direct diode high energy laser weapons
- Army – Eye-safe wavelength lasers with internal gratings for engines for directed energy weapons
- Missile Defense Agency – Infrared countermeasures, biochemical agent detection and battlefield communications

The SPIE Defense & Security conference is one of North America's largest annual defense conferences and features the latest innovations in imaging, sensors, displays, sensor data analysis, simulation and more. It is attended by participants from the US Navy, Army and Air Force, Lockheed Martin, NASA, Raytheon, and many other top organizations.

Exhibition Location:

Orlando World Center Marriott Resort & Convention Center

### **Forward Looking Statements**

This release and other materials released by the Company from time to time contain or may contain forward looking statements and information that are based upon beliefs of, and information currently available to, the Company's management as well as estimates and assumptions made by the Company's management. When used in the materials the words "anticipate", "believe", "estimate", "expect", "future", "intend", "plan" or the negative of these terms and similar expressions as they relate to the Company or the Company's management identify forward looking statements. Such statements reflect the current view of the Company with respect to future events and are subject to risks, uncertainties, assumptions and other factors (including the risks contained in the sections of the Company's reports filed with the Securities and Exchange Commission entitled "Risk Factors") relating to the Company's industry, the Company's operations and results of operations and any businesses that may be acquired by the Company. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned. Although the Company believes that the expectations reflected in the forward looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results. The following discussion should be read in conjunction with the Company's reports filed with the Securities and Exchange Commission.

### **About QPC Lasers, Inc.**

QPC Lasers, Inc. ([www.QPClasers.com](http://www.QPClasers.com)) is a world leader in the development, manufacture and distribution of high-brightness, high-power semiconductor lasers for the consumer electronics, defense, homeland security, industrial, and medical markets. Founded in the year 2000, QPC is vertically integrated from epitaxy through packaging and performs all critical fabrication processes at its state-of-the-art high-technology facility in the Los Angeles suburb of Sylmar, CA. QPC is a publicly traded U.S. company (OTCBB: QPCI) and is ISO certified.
