QPC Lasers Announces 8th Issued Patent

Company Further Protects Intellectual Property Portfolio

SYLMAR, CA – March 31, 2008 -- QPC Lasers, Inc. (OTCBB: QPC1) "QPC," a world leader in the design and manufacture of high brightness, high power semiconductor lasers for the consumer electronics, industrial, defense, and medical markets, announces that it was granted a new patent from the United States Patent and Trademark Office. The company now holds eight issued patents and eight patents pending.

Patent number US 7342951, titled "Laser Diode With Monolithic Intra-Cavity Difference Frequency Generator," protects a concept unique to QPC for a new architecture using nonlinear optical frequency converters integrated onto the source chip to create new infrared output frequencies.

"This is the second patent we've announced this year, further expanding and protecting our intellectual property portfolio which is important as we continue to develop new technologies in areas relevant to important new product developments," said President and CEO, Jeff Ungar, Ph.D. "There are a number of technologies unique to QPC and we will continue to add to our already strong portfolio of patents and trade secrets to further protect the competitive advantages of our products, thereby preserving our leadership position in the high power laser diode market."

Forward Looking Statements

This release and other materials released by the Company from time to time contain or may contain forward looking statements and information that are based upon beliefs of, and information currently available to, the Company's management as well as estimates and assumptions made by the Company's management. When used in the materials the words "anticipate", "believe", "estimate", "expect", "future", "intend", "plan" or the negative of these terms and similar expressions as they relate to the Company or the Company's management identify forward looking statements. Such statements reflect the current view of the Company with respect to future events and are subject to risks, uncertainties, assumptions and other factors (including the risks contained in the sections of the Company's reports filed with the Securities and Exchange Commission entitled "Risk Factors") relating to the Company's industry, the Company's operations and results of operations and any businesses that may be acquired by the Company. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned. Although the Company believes that the expectations reflected in the forward looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, the

Company does not intend to update any of the forward-looking statements to conform these statements to actual results. The following discussion should be read in conjunction with the Company's reports filed with the Securities and Exchange Commission.

About QPC Lasers, Inc.

QPC Lasers, Inc. (www.QPClasers.com) is a world leader in the development, manufacture and distribution of high-brightness, high-power semiconductor lasers for the consumer electronics, defense, homeland security, industrial, and medical markets. Founded in the year 2000, QPC is vertically integrated from epitaxy through packaging and performs all critical fabrication processes at its state-of-the-art high-technology facility in the Los Angeles suburb of Sylmar, CA. QPC is a publicly traded U.S. company (OTCBB: QPCI) and is ISO certified.
